

SIT217 - Robotics Project

Task 2.2P Team Formation

Hardware Required

None

Software Required

Microsoft Word

Pre-requisites: You must do the following before this task

You should have submitted Task 2.1P before attending week 2 workshop.

Task Objective

Objective of this task is to register your team on OnTrack and align your project ideas.

Steps:

1. Once you have found your teammates, head to OnTrack groups section (only one member of the group) and create a group, set a name for your team, and add your teammate(s) to the group.
2. Take a screenshot of your group on OnTrack.
3. Discuss ideas in the group and write down your group robotics project idea in no longer than two paragraphs.
4. Put your group screenshot, and description of your project idea on a word document, convert it to PDF and submit to OnTrack.

Task Submission Details

A PDF containing screenshot of your group formation on OnTrack, and the project idea your team will be working on.

Remember, anytime you submit a task to OnTrack, it is a good practice to check the status of any existing tasks, and the future tasks you are expected to complete. If you have got feedback on previous tasks, you may need to fix and resubmit some of your work. You want to check out why, so that you can learn from this and make it faster and easier to accomplish later work to the required standard.
